

VACANCY

ABOUT GEITA GOLD MINING LTD

Geita Gold Mining Ltd (GGML) is Tanzania's leading gold producer with a single operation in Geita Region. The company is a subsidiary of AngloGold Ashanti, an international gold producer headquartered in South Africa, with operations in more than ten countries, in four continents. The mine is situated in the Lake Victoria Gold fields of Northwestern Tanzania, only about 85 km's from Mwanza City and 20 km's Southeast of the nearest point of Lake Victoria. The company has its head office in Geita, only 5 Km's west of the fast-growing town of Geita, and also a supporting office in Dar es Salaam. Applications are invited from ambitious, energetic and performance driven individuals to fill in vacant position(s) mentioned below:

Position:	Operator 1- Equipment
Contract type & Duration:	Unspecified time contract
Department:	Process Plant
Reporting to:	Senior Supervisor- Milling
Number of Positions:	Two (2)

PURPOSE OF THE ROLE:

To operate the processing plant and associated equipment in a safe, productive, and efficient manner, to maximize plant performance without effecting the environment or health and safety of personnel. The processing operators will be involved in all aspects of mineral processing, including reagents mixing and steel balls addition, mills relining, operational equipment maintenance and general plant housekeeping. Cardinal is that the incumbent will work in teams, and shift work if required.

QUALIFICATIONS:

- A minimum certificate of Secondary School Education (CSEE).
- Certificate or Diploma in Mineral Processing Engineering will be an added advantage.
- **GGML is an equal opportunity employer: Female candidates are highly encouraged to apply.**

EXPERIENCE:

- At least one year working experience in the gold processing plant.
- Exposure to gold mining industry.

MAIN OR KEY ACCOUNTABILITIES:

- Good communication skills.
- Always act in a manner that seeks to enhance the safety culture and performance of GGM and ensures that the vital behaviors are always adhered to.
- Work safely in all areas, identify potential safety hazards, and work with management to correct hazards.
- Operates, inspects, and monitors (regular sampling and measurement) all processing plant equipment relating to crushing, grinding and gravity, leach, and adsorption (CIL), elution, regeneration kiln and reagents to achieve the highest possible ore recovery.
- Identifying and diagnosing, where possible, items of the plant that require preventative maintenance or repair.

- Clear blockages in materials-handling and transporting equipment.
- Clean, wash and maintain plant, equipment, and auxiliary systems.
- Monitor the operation of plant and equipment and ensure the safety of other workers.
- Ensuring production activities achieve maximum effective use of the plant and equipment by continual monitoring.
- Assisting in the development of competencies of other employees where directed.
- Immediately report equipment faults to prevent further deterioration.
- Safely isolate processing equipment for planned or unplanned shutdowns.

ADDITIONAL REQUIREMENTS:

- Clean criminal record or any other security incident.
- Fluency in Kiswahili or English or both.
- Be able to work at minimum supervision.
- Employees must have sufficient education to read and write instructions, perform simple mathematical calculations, and keep records.
- Clean criminal record or any other security incidents.
- Ability to diagnose and troubleshoot problems.
- Ability to interact effectively with all levels of employees and management.
- Ability to complete repetitive tasks at a consistently high standard.
