

WE ARE HIRING

➔ Network Engineer

Preferred Qualifications:

Industry Certification

- CCNA, NSE 4, Sophos Architect, etc.

To apply:  hr.admin@cctz.co.tz

We're Hiring a Network Engineer! 🚀

Are you a certified Network Engineer with a passion for secure, scalable network solutions? Join our team and take your career to the next level.

Key Responsibilities:

Design and implement secure, scalable network architectures.
Provide technical expertise and address inquiries during client meetings.
Conduct network assessments and optimize performance.

www.ajiranasi.com

Engage in presales activities: presentations, demos, and proposal development.
Collaborate with sales teams to propose tailored technical solutions.
Develop project documentation and support post-sales implementation.
Offer on-site technical support and manage IT services.

Required Skills and Experience:

Bachelor's degree in Computer Science, IT, or related field (or equivalent experience).
Minimum 2 years as a Network Engineer with presales and configuration focus.
Strong knowledge of network security and hands-on experience with firewalls (Cisco ASA, Palo Alto, Fortinet, Sophos).
Experience in wired/wireless network design and IT monitoring tools (SolarWinds, Nagios, PRTG).
Excellent communication, presentation, and multitasking skills.
If this sounds like you, apply now and become a key player in our innovative team!
